### Course Objectives

- ◆ Gain an understanding of the theory and “language” of taxation.
- ◆ Establish a broad understanding of the tax policy framework from which we can make informed decisions as voters. Identify tax policy issues suggested by or underlying particular provisions of the tax law.
- ◆ Show how taxation affects the economic decisions of multiple parties to a transaction. Build an appreciation for the importance of tax considerations in financial transactions.
- ◆ Teach sufficient detail about tax laws to provide a basic knowledge for all the students who are future taxpayers and the subset of students who become tax advisors. Apply basic tax rules and regulations to compute the taxable income and federal income tax liability for individual and corporate taxpayers.

### Required Materials

Custom Textbook from McGraw-Hill. Print version available at the Co-op. Electronic only version available by searching for ISBN 9781121675803 at <https://create.mcgraw-hill.com/shop/> (FYI, for royalty reasons, the e-book costs as much as the print book.) The custom book is a combination of Principles of Taxation for Business and Investment Planning by Jones and Rhoades-Catanach and Taxation of Individuals & Business Entities by Spilker, Ayers, Robinson, Outslay, Worsham, Barrick and Weaver.

### Course Requirements and Grading

Your grade in the course will be determined as follows:

Exam 1 in class	100
Exam 2 in class	100
Exam 3 in class	100
Final Exam	200
Tax return projects (2 projects—15 pts and 25 pts)	40
Electronic assignments/quizzes (best 12 out of 15 x 5 pts each)	<u>60</u>
Total	600

Grades will be based on mastery of the material. I have adopted plus/minus grading as the standard for all sections of the course. I expect to award a few B<sup>-</sup>'s and C's, many B's, and some B<sup>+</sup>/A<sup>-</sup>/A's with an overall course GPA around 3.3.

I believe that this difficult material often requires repeat exposure to master, and life throws unexpected hurdles. Thus, I will evaluate your final course grade substituting your final exam percentage score (if better) for worse midterm scores. For example, if your midterms were 82%, 60% and 72%, and you scored an 80% on the final exam, I would evaluate your final grade based on 82%, 80% and 80% midterms and 80% final exam.

Because I substitute the final exam for poor midterms, I offer no midterm makeup exams, except for mandatory UT excused absences. Choose to come or not, as your adult schedule permits. Note that most students do not do better on the final exam than on their midterms. I recommend that you study hard and take all exams.

Regrade requests for the first two exams must be submitted to me in writing within 3 business days after exams are returned in class. Regrade requests for the third exam are due by the final exam. Regrade requests for the final exam are due within the first two weeks of the spring semester. After the regrade period, only totaling errors will be adjusted for.

By UT-Austin policy, you must notify me of your pending absence at least fourteen days prior to the date of observance of a religious holy day. If you must miss a class, an examination, a work assignment, or a project in order to observe a religious holiday, you will be given an opportunity to complete the missed work within a reasonable time after the absence.

### **Description of Requirements**

The exams will be a combination of multiple choice/matching questions (which may be theoretic or numeric), short essay questions, and problems. The comprehensive final exam will be all multiple choice and matching.

A standard notes sheet will be allowed for each exam. I will distribute this note sheet one week before the exam (so you know what need not be memorized) and then distribute it again at the exam. You will not be allowed to use your book, notes, or your own note sheet during exams.

An assignment is due for nearly every class—either an exam, an electronic quiz to take or a project to complete. Electronic quizzes will be posted on Blackboard. I will count the best 12 (of 15) quizzes. Two quizzes will be completed during class. (noted on the syllabus) All other quizzes must be completed by 9:00 am on the date they are assigned. You should read chapter material and consider recommended exercises prior to attempting the quizzes, because the quizzes have time limits. The syllabus also lists two tax return projects. These projects will involve taking an electronic quiz on Blackboard and preparing tax forms. Finally, the attached schedule recommends end-of-chapter questions for class discussion and preparation for quizzes and exams, but I will not collect these. Solutions will be posted on Blackboard.

### **Class Participation**

While not graded, group sharing and problem-solving activity will be an integral component of your in-class experience. You contribute to the class learning environment in the following ways:

- ◆ helping classmates solve recommended out-of-class problems,
- ◆ expressing your opinion in class discussions and volunteering answers to problems worked in class,
- ◆ posting questions, solutions, or current events links and summaries to the class web site,
- ◆ asking questions during class or posting questions to the class web site. I (and the rest of the class) appreciate the student who says “slow down, I’m confused.”

### **Class Web Site and Student Privacy**

Password-protected class sites will be available for all accredited courses taught at The University. Syllabi, handouts, assignments and other resources are types of information that may be available within these sites. Site activities could include exchanging email, engaging in class discussions and chats, and exchanging files. In addition, class email rosters will be a component of the sites. Students who do not want their names included in these electronic class rosters must restrict their directory information in the Office of the Registrar, Main Building, Room 1. For information on restricting directory information, see: <http://www.utexas.edu/student/registrar/catalogs/gi02-03/app/appc09/html>.

### **Students with Disabilities**

Upon request, the University of Texas at Austin provides appropriate academic accommodations for qualified students with disabilities. Students with disabilities may request appropriate academic accommodations from the Division of Diversity and Community Engagement, Services for Students with Disabilities, 512-471-6259, <http://www.utexas.edu/diversity/ddce/ssd/>

### **McCombs Classroom Professionalism Policy**

The highest professional standards are expected of all members of the McCombs community. Faculty are expected to be professional and prepared to deliver value for each and every class session. Students are expected to be professional in all respects.

The Texas MPA classroom experience is enhanced when:

- **Students arrive on time.**
- **Students display their name cards.**
- **Students minimize unscheduled personal breaks.**
- **Students are fully prepared for each class.**
- **Students respect the views and opinions of their colleagues.**
- **Laptops are closed and put away.**
- **Phones and wireless devices are turned off.**

### **Academic Dishonesty**

The McCombs School of Business has no tolerance for acts of scholastic dishonesty. The responsibilities of both students and faculty with regard to scholastic dishonesty are described in detail in the BBA Program's Statement on Scholastic Dishonesty at <http://www.mcombs.utexas.edu/BBA/Code-of-Ethics.aspx>. By teaching this course, I have agreed to observe all faculty responsibilities described in that document. By enrolling in this class, you have agreed to observe all student responsibilities described in that document. If the application of the Statement on Scholastic Dishonesty to this class or its assignments is unclear in any way, it is your responsibility to ask me for clarification. Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and/or dismissal from the University. Since dishonesty harms the individual, all students, the integrity of the University, and the value of our academic brand, policies on scholastic dishonesty will be strictly enforced. You should refer to the Student Judicial Services website at <http://deanofstudents.utexas.edu/sjs/> to access the official University policies and procedures on scholastic dishonesty as well as further elaboration on what constitutes scholastic dishonesty.

I owe it to you to set rules that I can enforce, so that you don't worry that you are honest but that other classmates gain an advantage from dishonesty.

*Exams:* Each student must complete the exams independently during the designated exam period. Do not refer to other students' exam solutions or discuss the exam with other students during the exam period. Do not send text messages or access prohibited materials during the exam. Students who have taken an exam are prohibited from discussing the exam with students who have not yet taken the exam.

*Electronic assignments/quizzes and tax return projects:* On outside assignments, including electronic quizzes, you may obtain outside help and work with others, including classmates, former students, finding copies of solutions, etc. Because I permit collaboration, I do not make outside work a large component of the grade.

### **Campus Safety**

Please note the following recommendations regarding emergency evacuation from the Office of Campus Safety and Security, 512-471-5767, <http://www.utexas.edu/safety/>:

- Occupants of buildings on The University of Texas at Austin campus are required to evacuate buildings when a fire alarm is activated. Alarm activation or announcement requires exiting and assembling outside.
- Familiarize yourself with all exit doors of each classroom and building you may occupy. Remember that the nearest exit door may not be the one you used when entering the building.
- Students requiring assistance in evacuation should inform their instructor in writing during the first week of class.
- In the event of an evacuation, follow the instruction of faculty or class instructors.
- Do not re-enter a building unless given instructions by the following: Austin Fire Department, The University of Texas at Austin Police Department, or Fire Prevention Services office.
- Further information regarding emergency evacuation routes and emergency procedures can be found at: [www.utexas.edu/emergency](http://www.utexas.edu/emergency).

**CAVEAT:** This syllabus includes policies and plans for the course that may require adjustment as the course progresses. The instructor reserves the right to make changes at any time during the semester *with notice* to the class.

**NOTE:** There is **NO CLASS ON WEDNESDAY BEFORE THANKSGIVING** but there is a **MAKE-UP CLASS on FRIDAY, SEPTEMBER 13<sup>th</sup>.**

**Reminder:** All electronic quizzes are due by 9:00 am on the day assigned.
