

MIS 325: Database Management Spring 2012

Room: UTC 1.130
Time: MW 9:30 to 10:45 MW 11:00 to 12:15
Unique: 03670 03675

John Mote

Office: CBA 5.226
Hours: MW 12:30 to 2:00
Mail: jmote@mail.utexas.edu
Phone: 471-9436

TAs: Andrew Cooley & Melissa Hodges

Office: CBA 5.226
Hours: Melissa TTh 12:30 to 1:45
Andrew TTh 3:30 to 4:45

Course Objectives

Databases form the backbone of virtually every modern corporate information system. The database supports the organization's highly structured, operational activities (e.g., inventory, sales, marketing, personnel) as well as the ad hoc, strategic managerial analysis of complex business decision problems (e.g., new product introduction, plant expansion, off-shoring, downsizing, stock offerings). Without a well designed and intelligently implemented database, the organization will have a difficult time remaining competitive in the marketplace.

This course provides a balanced introduction to the design and implementation of corporate database management systems. We will examine effective strategies and techniques for modeling typical corporate data collection, retrieval and analysis problems. By understanding the information needs and data flows within an organization, we can create a database solution that best serves our users. The design skills we master in this course are universal. That is, the same basic modeling skills are needed whether we are designing a database for a single-user, pc-based environment or for a thousand-user, client-server, distributed environment.

Given a database design, and the corresponding hardware and network environment, the next crucial step of the process is the implementation phase (including verification). We will use Microsoft SQL Server as our primary vehicle for mastering the database implementation process. We will also use ASP and PHP for the user-interface component of web-based databases.

Given a basic design and implementation, the final step of the process is the ongoing monitoring and revision of the database management system as the organization, the users and the database itself evolve over time. Clearly, this step never ends.

Textbook

Murach's SQL Server 2008 for Developers

Bryan Syverson and Joel Murach

Murach Books, 2008

ISBN-13: 978-1-890774-51-6

<http://www.murach.com>

Supplemental Readings

Additional readings will be provided throughout the semester to provide background and to help fill gaps in the lectures.

Software

You do not need to purchase any software for this class. Everything is available on the computers in the Mod and Millennium Labs. You may also download the software (Visio Pro and SQL Server) at no cost to your own Windows computer. Installation instructions will be provided during the semester.

Class Web

All of the class material (slides, assignments, sample databases, ASP/PHP applications, FAQs, grades, etc) will be available from the class web (not Blackboard):

<http://www.utexas.edu/courses/mis325>

Teaching Assistants

The TAs will help students with software training and homework assignments. They will also grade some of the assignments, but not the exams.

Attendance

Roll is never taken, but attendance is strongly encouraged. No credit will be given for missed quizzes or in-class assignments.

Grading

Assignments & Quizzes	40 percent
February 22nd Exam	20 percent
March 28th Exam	20 percent
May 2nd Exam	20 percent

Assignments

All assignments will be posted on the web. Most assignments will be turned in electronically. Late assignments will be penalized twenty percent per calendar day (not class day) up to the time when the graded assignments are returned to the class. In order to be fair to the other students in the class, late assignments cannot be accepted after that point.

Quizzes

A few unannounced quizzes may be given during the semester. They will count as minor homework assignments.

Exam Format

The first exam will be held in the classroom. It will be closed book.

The second and third exams will be held in the Mod Lab. They will be open book, open note, open web. You must verify that you are able to logon to the lab computers prior to the exams. If you cannot logon, then speak to the staff in the Millennium Lab.

Sample exams will be distributed prior to each exam.

Re-grades

Occasionally, assignments and exams are graded incorrectly. All requests for re-grades must be submitted within one week of the date the graded item is returned to the class.

Students with Disabilities

The University of Texas provides upon request appropriate academic accommodations for qualified students with disabilities. For more information, contact the Office of the Dean of Students at 471-6259, 471-4641 TTY.

Prerequisites

There are no formal prerequisites for MIS 325. Some students do, however, know a procedural programming language like Visual Basic. Some are learning VB this semester in MIS 304. Quite a few students know a bit about web programming (HTML, CSS, JavaScript). A handful know some SQL, but very few have a deep knowledge of the language. To repeat: There are no prereqs for this class. You will be taught everything you need to know about VB, HTML, SQL and all of the other acronym languages.

Tentative Schedule

Revisions to the schedule (as well as suggested readings, assignments, handouts, etc) will be announced in class and posted on the web.

Date	Topic
January 18th (Wed)	Course Introduction
January 23rd (Mon)	Basic Database Concepts (Part 1)
January 25th (Wed)	Basic Database Concepts (Part 2)
January 30th (Mon)	Database Models & ER Diagrams (Part 1)
February 1st (Wed)	Database Models & ER Diagrams (Part 2)
February 6th (Mon)	Normalization
February 8th (Wed)	Modeling Exercise
February 13th (Mon)	SQL Introduction
February 15th (Wed)	SQL Data Definition Language (Part 1)
February 20th (Mon)	SQL Data Definition Language (Part 2)
February 22nd (Wed)	Exam One
February 27th (Mon)	SQL Select: Basics
February 29th (Wed)	SQL Select: Aggregation
March 5th (Mon)	SQL Select: Joins
March 7th (Wed)	SQL Select: Special Cases
March 19th (Mon)	SQL Insert, Update and Delete
March 21st (Wed)	Functions & Stored Procedures
March 26th (Mon)	SQL Odds & Ends
March 28th (Wed)	Exam Two
April 2nd (Mon)	ASP/PHP Introduction
April 4th (Wed)	ASP/PHP Basic Structure
April 9th (Mon)	ASP/PHP Drill-Down Selects (Part 1)
April 11th (Wed)	ASP/PHP Drill-Down Selects (Part 2)
April 16th (Mon)	ASP/PHP Multi-Table Selects
April 18th (Wed)	ASP/PHP Inserts (Part 1)
April 23rd (Mon)	ASP/PHP Inserts (Part 2)
April 25th (Wed)	ASP/PHP Updates & Deletes
April 30th (Mon)	ASP/PHP Odds & Ends
May 2nd (Wed)	Exam Three
