

PRE-ENROLLMENT REQUIREMENTS

The following undergraduate courses are pre-enrollment requirements for the ECON-MPA and should be completed prior to applying for Graduate Select Admission (See the [ECON-MPA FAQ](#) for additional information about pre-enrollments):

- Calculus I and II (M 408K/L or M 408C/D or the equivalent)
- Introduction to Microeconomics and Macroeconomics (ECO 304K/L or the equivalent)
- Economic Statistics (ECO 329)
- *Preferred* - One or more of the following:
 - Econometrics (ECO 341K)
 - Microeconomic Theory (ECO 420K)
 - Macroeconomic Theory (ECO 320L)
 - Upper-Division Economics Elective (taken at UT Austin)
- Fundamentals of Financial Accounting (ACC 311 or the equivalent)
- Fundamentals of Managerial Accounting (ACC 312 or the equivalent)

Completing all pre-enrollment courses before applying will greatly strengthen your application. However, if you are a high-achieving applicant and are lacking a pre-enrollment requirement, you may still apply to the ECON-MPA program. If you are admitted, we would expect you to complete the outstanding requirement before enrolling in MPA classes.
