

ALL McCOMBS STUDENTS

PRE-iMPA AND CPA RESOURCES

McCombs Accounting Students: Find your path to the iMPA program and/or CPA certification

MPA Admissions and Academic Advisors are available to assist you in finding your path to iMPA and/or CPA certification. We encourage students to take advantage of the following resources:

1. **Attend an information session and other admissions events** to learn more about the iMPA program, the value of the MPA degree, and the admissions process:
<https://calendar.mcombs.utexas.edu/all/groups/MPA>

If you are interested in applying to iMPA, attend an iMPA information session *before* scheduling an appointment with the MPA admissions team or an MPA academic advisor.

2. **Consult with the MPA admissions team** if you have specific questions about the admissions process, prerequisites, or application timing, or if you need assistance with your iMPA application: <https://qrco.de/MPABookings>

3. **BEGINNING IN SPRING 2027, meet with an MPA academic advisor.** We strongly encourage students interested in applying to iMPA and/or attaining CPA certification to schedule a one-on-one meeting with an iMPA academic advisor. During these meetings you can discuss internship options, upper-division and graduate-level accounting courses, graduate school admission, and professional certification requirements such as the CPA exam and license.

[Academic appointment scheduling link will be available here by early spring 2027](#)
