As the first women’s-directed undergraduate initiative at the McCombs School of Business, the BBA Women’s Council creates a supportive structure that encourages the success of women seeking to enter the business world. The program provides a forum for undergraduate women in business to learn about and discuss current issues and opportunities in today’s corporate world. Through forums, weekly seminars, and other unique programming, undergraduate women are able to gain knowledge about the challenges women face in the workplace and how to prepare for success during and after college.
