Single-company events: Engage prospective candidates through varying formats such as information sessions, office hours, educational or interview prep workshops, and networking receptions

Student organization engagement: Interact with specific industry, functional, and affinity groups

Trek and site visits: Showcase your organization’s individual culture and operations by hosting students to your office

MBA+ Projects: Engage a team of students to work on a micro-consulting project

RECRUIT INTERNATIONAL STUDENTS

International students representing over 16 countries comprise approximately 20% of our typical incoming MBA class. McCombs international students have an average of 6.25 years of experience in core business functions and are graduates of top schools in their respective countries. These students bring diverse language skills and valuable knowledge of global business environments.

CURRICULAR PRACTICAL TRAINING (CPT)

Curricular Practical Training is temporary employment authorization available to most students holding F-1 status after their first year of study.

CPT does not require visa sponsorship from an employer to work. The work authorizations are issued by The University of Texas at Austin International Office, therefore hiring an International Texas McCombs MBA as an intern requires no additional paperwork for the employer.

OPTIONAL PRACTICAL TRAINING (OPT)

Optional Practical Training is temporary employment authorization available to students holding F-1 status, typically used after they graduate. Graduates can work up to 12 months on OPT in a field related to their academic major.

International students who are authorized for OPT by USCIS do not need to change their immigration status to work. This authorization requires no additional paperwork for the employer.
