Texas McCombs is a premier business school in the heart of a world-class research university. Ranked by Princeton Review No. 1 best campus environment, No. 4 best professors, No. 7 greatest resources for women, and No. 9 best classroom experience – we shape leaders who will shape tomorrow, advancing further, faster, together.

New Joint Degrees
The inaugural class of MD/MBA students in partnership with Dell Med has begun with 16 students, who have each spent two years in medical school and are coming to Texas McCombs to take core classes in their third year. The school is also working on a new undergraduate dual degree honors program in business and computer science.

UTNY Center in Manhattan
Because breakthroughs happen where diverse ideas and perspectives converge, Texas McCombs is establishing UTNY, a cross-discipline learning center in Manhattan, where students can explore business, finance, and other subjects in one of the most dynamic cities in the world. Classes and internships will begin in 2019.

STEM Certification for MS
The MS Marketing and MS Finance programs have joined the school’s other MS degrees as STEM certified. The certification makes the programs more attractive and accessible for international students. The 10-month MS programs include Business Analytics; Energy Management; Finance; IT and Management; and Marketing.

Undergraduate Entrepreneurship
The school now offers a cross-campus entrepreneurship minor designed for undergraduate students interested in starting their own business. The program is administered by the Herb Kelleher Center for Entrepreneurship, which also launched DisrupTexas, a new-business pitch competition with $50,000 in prizes for undergraduate students from across Texas.

Top BBA Graduation Rate
The university reached a record 4-year graduation rate of 69.8 percent through campus wide efforts to increase student success particularly among first-generation, Pell-eligible, and students of color. Texas McCombs led all schools at The University of Texas at Austin with a graduation rate of 82.6 percent.

MBA Class Strength
The incoming class of 284 full-time MBA students is the largest in 14 years, with 18 percent underrepresented minorities (our highest ever), and 38 percent women (bested only by last year’s female enrollment of 40 percent). Average GMAT scores of the class stayed strong at 702.

**Actively Networked**

As the number of living alumni nears 100,000, the school continues to engage graduates for more effective mentoring and career support. New York for McCombs is one example, tapping the power of 3,300 area alumni to expand the influence and career power of the Texas McCombs community. Similar efforts are underway on the West Coast and other major business centers in the U.S., Europe, and Asia.

Distribution of alumni with reported addresses in the lower 48 states.
