WAIVER/SUBSTITUTION POLICY

The MPA degree consists of 43 semester hours of coursework, as outlined in the degree requirement summary, unless a student qualifies for course waivers. We will waive up to four core courses (12 credit hours) and reduce your MPA degree to 31 credit hours if you complete the equivalent at a four-year college or university prior to entering the MPA program.

If you complete the equivalent to more than four core courses prior to enrolling in the MPA program, we will substitute an accounting or business elective(s) for the core course(s) so that coursework is not repeated.

MPA degree requirements include a minimum of 31 total credit hours, including a minimum of 19 hours in accounting and a minimum of four accounting courses beyond the core. Your Academic Advisor will approve any waivers and substitutions during new student advising in the summer. Syllabi or detailed course descriptions may be requested.

COURSE AND WAIVER/SUBSTITUTION DESCRIPTIONS

ACC 180C
MPA Distinguished Speaker Lyceum (1 credit)
The MPA Distinguished Speaker Lyceum gives students the opportunity to interact on a regular basis with outstanding professionals from accounting practices and the business community, both from Texas and across the nation. Throughout the fall, prominent representatives of accounting firms, businesses, and the government speak to students about a variety of important issues affecting professionals today. Students gain insights about professional life, current issues, and topics beyond what is covered in textbooks. MPA students become acquainted with people whose names appear regularly in The Wall Street Journal, the Journal of Accountancy, and similar business periodicals. Required for all MPA students.

ACC 381
Financial Accounting (3 credits)
Financial Accounting covers concepts and issues involved in the preparation and interpretation of financial statements and the use of this information to evaluate and control an organization. May be waived with two semesters of financial accounting, including one semester of intermediate accounting, at the undergraduate level with a grade of B or better (ACC 311 + ACC 326 if completed at UT-Austin). Please note that students who do not qualify for the Financial Accounting waiver will be required to complete two courses during the second six-week summer session which begins in mid-July.

ACC 387.1
Managerial Accounting (3 credits)
Managerial Accounting discusses the origination, processing, and operational uses of accounting information for management purposes. It integrates the topics of cost determination, economic analysis, capital budgeting, and management and financial controls. May be waived or substituted on the basis of two semesters of managerial accounting, including cost accounting, at the undergraduate level with a grade of B or better.

BA 385T
Financial Management (3 credits)
Financial Management examines the theory and practice of corporate finance with a focus on a corporation’s investment and financing decisions. Major topics include risk and return, valuation, asset markets and market efficiency, capital budgeting, capital structure, dividend policy, and derivative securities. May be waived or substituted on the basis of two semesters of finance, including business or corporate finance, at the undergraduate level with a grade of B or better (FIN 357 + 3 additional hours in FIN if completed at UT-Austin).
Legal Environment of Business for MPAs
(3 credits)
Legal Environment of Business for MPAs enhances the students’ understanding of legal processes in order that they may make effective and efficient business decisions. The course will also improve the students’ skills in recognizing and managing legal and ethical risks in business decision making. May be waived or substituted on the basis of one semester of business law (taken at a U.S. college or university), which includes a background of the U.S. legal system, contract law, tort law, and agency/employment law, at the undergraduate level with a grade of B or better (LEB 323 or LEB 320f if completed at UT-Austin).

Financial Accounting Standards and Analysis I
(Intermediate Financial)
Financial Accounting Standards and Analysis I (Intermediate Financial) teaches students current accounting principles and their application. This course also includes the interpretation and evaluation of a company’s financial statements. May be waived or substituted on the basis of two semesters of intermediate accounting at the undergraduate level with a grade of B or better (no equivalent undergraduate course offered at UT-Austin).

Introduction to Assurance Services
(3 credits)
Introduction to Assurance Services provides a basic understanding of the audit process, while focusing on the value of assurance services and internal control from the decision-maker’s perspective. May be waived or substituted on the basis of one semester of introductory auditing at the undergraduate level with a grade of B or better (ACC 362 if completed at UT-Austin).

Introduction to Taxation
(3 credits)
Introduction to Taxation develops an understanding of the economics of taxation, a basic comprehension of federal income tax laws and the rudiments of tax research, and a framework for integrating tax planning into accounting and business decisions. May be waived or substituted on the basis of one semester of introductory taxation at the undergraduate level (taken at a U.S. college or university) with a grade of B or better (ACC 364 if completed at UT-Austin).

Information Technology for Accounting and Control
(3 credits)
Information Technology for Accounting and Control examines networking, databases, security, the Internet, and other technology used to support management and accounting controls in all types of organizations, from start-up enterprises to the largest e-commerce firms. May be waived or substituted on the basis of one semester of accounting information systems, including coverage of business processes and accounting control systems, at the undergraduate level with a grade of B or better (no equivalent undergraduate course offered at UT-Austin).
