Required Texts:

- Horngren, Datar, & Rajan, Cost Accounting: A Managerial Emphasis (14th Ed.)

ACC 329, Cost and Management Accounting Readings, Handouts (HOs), Cases and Solutions Package. Available at Speedway Copy and Printing, 715 W. 23rd St. Suite N, Austin, TX 78705 (512-478-3334).

- Ajinkya, Atiase & Bamber (AAB), Issues in Accounting Education, Fall 1986, pp. 268-281.*

- The Ernst & Young Guide To Total Cost Management (E&Y Guide), Wiley & Sons, 1992, Chapters 7, 8 & 9.*

*Included in the ACC 329 Course Package.

Course Objectives:

This course will cover cost accumulation concepts and techniques for Product and Service Costing and Planning and Control, as well as Non-routine Managerial Decisions. Modern management accountants are not only concerned with how cost data are transformed into cost accounting information but more importantly how to use cost accounting information to aid managerial goals. It is the case, however, that one cannot effectively use cost information without a good understanding of how various cost accounting...
information are generated. Topics introduced in Introductory Managerial Accounting Courses will be covered much more rigorously in this course. In addition the course will provide students with a good exposure to topics on current and emerging concepts, practices and developments in Total Cost Management (TCM) including Activity-Based Costing (ABC), Benchmarking and Best Practices (BBP), Customer Costing (CC), Business Process Analysis (BPA), Business Process Improvement (BPI), Cost-Volume-Profit Analysis under Absorption and Direct Costing, Relevant Costing, Strategic Cost Management (SCM), and Transfer Pricing in Perfect and Imperfect Intermediate Product Markets.

The course should develop the student's understanding, skill, and analytical ability in management accounting to the level where he or she can function effectively (and efficiently) as a professional management accountant in industry, public accounting, management consulting, government, or personal business management.

Reading/Written (Home) Assignments & Outline of Class Notes:

This course, though not difficult conceptually, will undoubtedly be demanding in time and effort. Thus students may be well-advised to allocate adequate time to the study of the material. The only path to success in this course is for the student to complete (or at least attempt) the reading and written home assignments regularly and on time (i.e., before each class meeting). Note: Basic algebraic and quantitative skills are assumed.

Written homework (in pencil) is due at the beginning of each class session for which it is assigned. Homework need not be perfect; if a reasonable attempt is made towards solving all problems, you will receive perfect scores. Assigned problems are meant to guide class participation; time constraints will determine whether they will (all) be solved in class. Active class participation is required. Homework will be collected at random.

The outline of class notes for each class will be posted on Canvas a few days before each class. Each student should print and bring the outline of class notes for each class.

Group Case Write-up and Presentation:

You and your group will be responsible for a detailed analysis of a primary case. You should generally plan to submit three copies of a maximum of a five-page, double-spaced typed solution, along with any exhibits and presentation slides you deem appropriate. Your solution to the case must explain what you believe the company's problems and challenges are, and then explain how your suggested course of action addresses those problems. Your target audience is fellow managers who are familiar with basic business concepts, but not with the details of a particular problem or solution techniques. Obviously, a set of computations or schedules would not by themselves be sufficient to define the problem and explain a solution.

Secondary Case Write-ups:

You and your group should also turn in three copies of a maximum of two-page double-spaced executive summary (along with any exhibits you deem appropriate) of the other cases on the designated dates. The executive summaries should discuss (1) the major issues, (2) your solution, (3) operational and/or strategic questions you might pose to specific managers or to the firm.
Group Review Synthesis Write-up and Presentation:

You and your group will present and submit three copies of two-page double-spaced typed review and synthesis (along with exhibits and presentation slides) of one of the major areas of cost and managerial accounting covered during the semester.

I expect each student to contribute equally to every case and synthesis write-up and presentation.

Attire for Group Presentations: Business Casual

Examinations, Group Case Write-ups and Presentations, Synthesis and Grading:

There will be two mid-term exams and a comprehensive final exam. In addition, there may be unannounced pop quizzes. A requirement of the course is that Exam I, Exam II & the Final Exam will be given in the evening. Do note the exam dates and times now and arrange to keep yourself free at those times.

Individual grades will depend on the student's performance according to the following criteria:

<table>
<thead>
<tr>
<th>Grading Item</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mid-term Exam I (Oct. 8, 5:00-7:00 p.m.)</td>
<td>125</td>
</tr>
<tr>
<td>Mid-term Exam II (Nov. 12, 5:00-7:00 p.m.)</td>
<td>125</td>
</tr>
<tr>
<td>Final Exam (Dec. 11, 2:00-5:00 p.m.)</td>
<td>150</td>
</tr>
<tr>
<td>Cases:</td>
<td></td>
</tr>
<tr>
<td>Primary Case</td>
<td>50</td>
</tr>
<tr>
<td>Secondary Case</td>
<td>25</td>
</tr>
<tr>
<td>Synthesis</td>
<td>25</td>
</tr>
<tr>
<td>TOTAL POINTS</td>
<td>500</td>
</tr>
<tr>
<td>Quizzes, Homework &amp; Class Participation</td>
<td>Soft Points*</td>
</tr>
</tbody>
</table>

*Soft points are typically used to upgrade students whose overall performance on hard points (examinations, etc.) falls on a borderline (e.g., A/A-/B+/B). However, each student must earn at least 70 percent of the points assigned to homework collected or risk an automatic reduction of his or her final course grade by half a letter grade!

In accordance with the Accounting Department Grade Policy/Guideline for the BBA Core courses, Final Course Grades (A, A-, B+, B, B-, C+, C, etc.) will be assigned to achieve a final class average GPA between 3.2 and 3.4, inclusive.

Students with Disabilities

Students with disabilities may request appropriate academic accommodations from the Division of Diversity and Community Engagement, Services for Students with Disabilities, 512-471-6259, http://www.utexas.edu/diversity/ddce/ssl/.
**Religious Holy Days**

By UT Austin policy, you must notify me of your pending absence at least fourteen days prior to the date of observance of a religious holy day. If you must miss a class, an examination, a work assignment, or a project in order to observe a religious holy day, you will be given an opportunity to complete the missed work within a reasonable time after the absence.

**Policy on Scholastic Dishonesty**

The McCombs School of Business has no tolerance for acts of scholastic dishonesty. The responsibilities of both students and faculty with regard to scholastic dishonesty are described in detail in the BBA Program’s Statement on Scholastic Dishonesty at [http://www.mccombs.utexas.edu/BBA/Code-of-Ethics.aspx](http://www.mccombs.utexas.edu/BBA/Code-of-Ethics.aspx). By teaching this course, I have agreed to observe all faculty responsibilities described in that document. By enrolling in this class, you have agreed to observe all student responsibilities described in that document. If the application of the Statement on Scholastic Dishonesty to this class or its assignments is unclear in any way, it is your responsibility to ask me for clarification. Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and/or dismissal from the University. Since dishonesty harms the individual, all students, the integrity of the University, and the value of our academic brand, policies on scholastic dishonesty will be strictly enforced. You should refer to the Student Judicial Services website at [http://deanofstudents.utexas.edu/sjs/](http://deanofstudents.utexas.edu/sjs/) to access the official University policies and procedures on scholastic dishonesty as well as further elaboration on what constitutes scholastic dishonesty.

**Campus Safety**

Please note the following recommendations regarding emergency evacuation, provided by the Office of Campus Safety and Security, 512-471-5767, [http://www.utexas.edu/safety](http://www.utexas.edu/safety):

- Occupants of buildings on The University of Texas at Austin campus are required to evacuate buildings when a fire alarm is activated. Alarm activation or announcement requires exiting and assembling outside.
- Familiarize yourself with all exit doors of each classroom and building you may occupy. Remember that the nearest exit door may not be the one you used when entering the building.
- Students requiring assistance in evacuation should inform the instructor in writing during the first week of class.
- In the event of an evacuation, follow the instruction of faculty or class instructors.
- Do not re-enter a building unless given instructions by the following: Austin Fire Department, The University of Texas at Austin Police Department, or Fire Prevention Services office.
- Behavior Concerns Advice Line (BCAL): 512-232-5050
- Further information regarding emergency evacuation routes and emergency procedures can be found at: [http://www.utexas.edu/emergency](http://www.utexas.edu/emergency).

**Final Exam:**  Common Final Exam – Thursday Dec 11, 2014; 2:00-5:00 p.m.  
Make-Up Final Exam – Friday Dec 12, 2014; 7:00-10:00 p.m.
GUIDELINES FOR CASE & SYNTHESIS WRITE-UPS

- Attach a cover page including the following items: case name; group members’ names; course and class time or unique number.

- 11 or 12 point Times New Roman font with 1 inch margins.

- Double-spaced (1.5 line spacing does not constitute double-spacing).

- The first paragraph should include a brief overview of the case facts as well as introduction to the issues you are to address, i.e. the questions that you intend to answer throughout the case. This will provide a nice transition to your first paragraph.

- Do not enumerate your answers, but instead include answers in a coherent sequence of paragraphs.

- All pages following the cover page should have a page number (beginning with page 1) on the lower right-hand corner (right footer for Word users).

- For each paragraph, include a concise topic sentence that answers the question. Support in the form of analysis and explanations should follow your topic sentence.

- Provide adequate support for conclusions—do not simply conclude something without supporting it somehow (this applies even to the secondary cases although there is less breadth expected in the explanations). A good heuristic is to ask yourself, if you were the CEO of this firm would this conclusion make sense to you?

- Headings are ok, but you should be able to lead the reader to the next paragraph easily with a segue.

- All tables and exhibits should be attached at the end of the case discussion and be noted upon first reference in the case discussion, e.g. Blah blah blah (see exhibit 1).

- **PROOFREAD**—many mistakes could be detected and subsequently corrected with a cursory proofread.
Suggested Questions and Issues on the Berkshire Threaded Fasteners Co. Case

1. How do the individual product line and total company’s Direct Costing Income Statements and Incomes compare with the Absorption Costing Income Statements and Incomes for the year ended December 31, 1973 and the six months ended June 30, 1974?

2. If the company had dropped the 300 series as of January 1, 1974, what effect would that action have had on the profit for the first six months of 1974?

3. In July 1974, should the company have reduced the price of the 100 series from $2.45 to $2.25?

4. Which is Berkshire’s most profitable product line?

5. What strategic suggestions do you have for Mr. Magers and Berkshire as a result of your overall analysis?

These questions and issues are things you may wish to consider. You may emphasize other issues you think are important or adopt a different perspective that you think may be appropriate to the case.

Group write-ups for primary and secondary cases are described in the course outline. Each primary (secondary) case group should plan to submit three copies of a maximum of five(two)-page double-spaced typed solution, along with any exhibits and presentation slides that they deem appropriate. Each primary case group should also plan on a maximum 15 minute overall presentation (including set-up time).
1. Explain the trend in the overhead allocation rates over the 1987 to 1990 period.

2. Are the product costs reported by the cost system appropriate for strategic non-routine decision making?

3. Assuming 1991 prices, sales volumes and materials costs are unchanged from 1990, what is the likely 1991 budget (Hint: Use Direct costing)
   
   (a) with no changes in the product line?
   
   (b) if the manifold product line is dropped?
   
   How does the overhead allocation rate differ under the two alternatives?

4. Would you outsource manifolds in 1991?

5. What other strategic suggestions do you have for Bridgeton Industries?

These questions and issues are things you may wish to consider. You may emphasize other issues you think are important or adopt a different perceptive that you think may be more appropriate to the case.

Group write-ups for primary and secondary cases are described in the course outline. Each primary (secondary) case group should plan to submit three copies of a maximum of five(two)-page double-spaced typed solution, along with any exhibits and presentation slides that they deem appropriate. Each primary case group should also plan on a maximum 15 minute overall presentation (including set-up time).
Suggested Questions and Issues on the Destin Brass Product Co. Case

1. What are the problems/issues facing Destin Brass?

2. How might the standard cost estimates being used be improved upon using activity based costing?

3. What are the implications of the differences between your improved cost estimate and the company’s standard cost?

4. Suppose that production and sales levels as well as other activities and costs are at the current standard level. How would net income differ under currently used standard costing system and the activity based costing system?

5. What strategic suggestions would you make to Destin Brass Co. as a result of your overall analysis?

These questions and issues are things you may wish to consider. You may emphasize other issues you think are important or adopt a different perceptive that you think may be more appropriate to the case.

Group write-ups for primary and secondary cases are described in the course outline. Each primary (secondary) case group should plan to submit three copies of a maximum of five(two)-page double-spaced typed solution, along with any exhibits and presentation slides that they deem appropriate. Each primary case group should also plan on a maximum 15 minute overall presentation (including set-up time).
Managerial/Cost Accounting has three major objectives – namely:

1. Product (Service) Costing
2. Planning and Control, and
3. Non-Routine Managerial Decisions

Virtually all topics covered in this course fall under at least one of these three major areas. You and your group will be responsible for the review and synthesis of one of the above major areas of managerial accounting (i.e., your Primary Synthesis Topic) covered during the semester. Your review and synthesis may address the following suggested questions and issues:

1. What are the learning objectives of your (primary) synthesis topic?
2. How have we achieved them?
3. How is your primary synthesis topic related to the other major areas of managerial accounting?
4. What knowledge have we gained in this course beyond ALL previous courses taken (value-added)?
5. How do you expect the knowledge you gained in this course from (i) your primary synthesis topic and (ii) your secondary synthesis topics to help you in your potential future careers?
6. Any other comments you want to share.

These questions and issues are things you may wish to consider. You may emphasize other issues you think are important or adopt a different perceptive that you think may be more appropriate for your review and synthesis. Each group should plan to submit three copies of two-page, double-spaced typed review and synthesis (along with any exhibits and presentation slides that they deem appropriate) and also plan on a 5 minute overall presentation.
